MEMORANDUM FOR: Chief, Regulations Control Staff

25X1

SUBJECT : Notice [] - Training at Non-CIA Facilities Under
PL 110 - Requirement for Forwarding Applications

George: This notice doesn't hang together. Paragraph 1 presumably sets the policy, i.e. requires screening by the Career Service Board and selection by the DCI. Paragraph 2, however, requires indorsement by the Deputy Director concerned, submission to the Director of Training for reasons unstated, referral to a heretofore unmentioned Selection Board, and makes no mention of selection by the DCI or of consideration by Career Service Boards.

In addition to the above inconsistencies and confusion there are other editorial ambiguities:

a. In paragraph 2, first sentence the words "the application" should probably be changed to "each application for training at the above listed schools."

b. The last sentence of paragraph 2, is probably incorrect if the Selection Board referred to is that of the individual school concerned. If so it is inconceivable that CIA would forward every application including those which have already been rejected within CIA.

Lastly, and probably of more importance, I would like to point out that this notice is not "In accordance with Regulations [] and []" as stated. On the contrary it appears to conflict with and would rescind substantial provisions in these regulations. It would, therefore, seem far more appropriate to either revise the regulations or if a temporary notice is absolutely necessary to point out the specific revisions being made.
